EDUCATION

Bachelor of Computer Science Hons. Netcentric Computing

Universiti Teknologi MARA | CGPA: 3.69

Mar 2024 - Current

Diploma of Computer Science

Universiti Teknologi MARA | CGPA: 3.67 | Vice Chancellor's Award (ANC)

Mar 2021 - Sep 2023

COMPLETED PROJECTS

Web Development

- **Glyph - Social Gaming Hub** (playglyph.me): Developed a full-stack social gaming platform using Laravel. Integrated Steam API for user authentication and game data retrieval, Agora.io for real-time voice chat functionality, and Telegram Bot API for notifications. Implemented custom team matchmaking algorithm to connect players based on preferences and skill levels.

Mobile Application Development

- **AI StudyMate**: Built an AI-powered study companion mobile application using Flutter and Firebase. Developed an in-house exam tracker RESTful API using Laravel. Integrated Google Gemini AI for automated note summarization and flashcard generation. Implemented Google Cloud Vision OCR for extracting handwritten and printed text, enabling users to digitize and edit notes within the app.
- **MelakaYourWay**: Developed a Melaka tourism mobile application for Android using Flutter. Integrated multiple Google services including Firebase Authentication for secure user login and Google Geolocation API to provide location-based features and navigation for tourists exploring Melaka.

Security & Digital Forensics

- **Phishing Email Detection Tool:** Developed a Python-based application to identify phishing emails and potential scam attempts through pattern analysis and heuristic detection. Completed as a group project for Digital Forensic coursework.
